PROFESSIONAL SUMMARY

Information Systems graduate with a unique blend of cybersecurity expertise, technical problem-solving, and digital creativity. ISC² Certified in Cybersecurity (CC) and holder of the Google Cybersecurity Professional Certificate, with hands-on experience in cybersecurity operations, e-commerce, graphic design, and digital content creation. Passionate about protecting digital systems while building innovative solutions that create real business impact. Continuously advancing expertise through cybersecurity and AI training, with the goal of contributing to organisations that value security, innovation, and continuous learning.

TECHNICAL SKILLS

Tools: Microsoft Sentinel, Microsoft Defender, Nmap, Nikto, Wireshark, Burp Suite, Metasploit, UFW, Kali Linux, TryHackMe
Domains: Incident Response | SOC Operations | Threat Modeling | Cryptography | JWT Pen Testing | SQL Injection | Vulnerability Assessment | Patch Management | OWASP Top 10 | Network Security | Password Auditing | GRC | IAM | Log Analysis | Digital Forensics | Packet Analysis

PROFESSIONAL EXPERIENCE

Bellatools | *Digital & Creative Technician* | 1 April 2026– 12 July 2026

- Built and managed a full Shopify Horizon e-commerce store including product listings, theme customisation, and store configuration
- Designed marketing assets — badges, wristbands, and branded print materials — using graphic design tools
- Produced and encoded NFC keyholders, managing the full production workflow from design to delivery
- Created and edited promotional video content using CapCut for TikTok social media, driving brand engagement

Ubuntu Bridge Initiative TRAN (Remote) | *Cybersecurity Intern* | June 2026 – Aug 2026 (Ongoing)

- Performed SOC operations: incident response workflows, real-time threat monitoring, and forensic artifact analysis
- Decrypted multi-layer ciphers (Base64, ROT13, Atbash) and conducted JWT pen testing — token forgery, HMAC cracking, privilege escalation
- Contributed to GRC initiatives aligning security frameworks with operational requirements; applied threat modeling and vulnerability assessment

Oasis Infobyte (Remote) | *Security Analyst Intern* | 15 June 2026 – 15 July 2026

- Conducted vulnerability scanning with Nmap & Nikto; performed traffic analysis (Wireshark) and firewall configuration (UFW)
- Exploited SQL Injection (SQLi) in a controlled web app environment to identify and document web application security risks

Murray Mac Dougal | *Helpdesk Support* | April 2025 – April 2026

- Monitored POS systems for anomalies, reported suspicious activity, and followed fraud prevention and incident response procedures
- Handled sensitive customer data in compliance with data protection standards; maintained digital records for audit readiness

Willowvale Motor Industries | *IT Intern* | Aug 2022 – Aug 2023

- Managed user accounts, access control (least-privilege), and supported compliance, vulnerability identification, and data backup processes

PROJECTS

Network Vulnerability Scanning & Traffic Analysis — Nmap, Wireshark, Nikto

- Performed network reconnaissance to identify open ports and attack surfaces; analysed packets in Wireshark to detect anomalies (Task-1, Task-8, Task-10)

Password Audit & Credential Security Assessment — Kali Linux

- Conducted password audit evaluating strength and policy compliance; recommended controls to reduce credential-based attack risk (Task-2)

OWASP Top 10 & Web Application Security Testing — Burp Suite, SQLi

- Tested web applications against OWASP Top 10 vulnerabilities; exploited and documented SQL Injection with remediation steps (Task-5)

Network Threat Reporting & Patch Management — GRC, Vulnerability Management

- Investigated network threats; produced structured threat report and patch management plan aligned with security best practices (Task-4, Task-6)

CERTIFICATIONS

ISC2 Certified in Cybersecurity (CC) | Google Cybersecurity Certificate | Microsoft SC-200 – In Progress

EDUCATION

Bachelor of Information Systems | Great Zimbabwe University | 2020 – 2024 | Degree: 2:1 (Upper Second Class Honours)
